DXpedition News

Tromelin - FR/T Hoarau Yoland FR5AI will spend a month on Tromelin (AF-31) as FR5AI/T March 2-April 2, 1987. He'll operate 15 and 20 meters into a dipole. In September he'll try for **Europa** Island (AF-09). QSL St. Francois PK-4, 97400 St. Denis, Reunion Island, via France.

Chad - TT8 Eric **TT8AQ** works 40, 80, and 20 meter SSB in his evenings and on weekends. Eric's home call is FD1JKK, QSL via F6EYS. He'll be there until Feb. Tnx DXNS.

Desecheo - KP5 LIDXB says that Bob Sicilia NP4TP has a license for Desecheo and is looking for fellow DXpeditioners for a trip over the Christmas holidays. Contact Bob at 115 Canyon St., Bayview, Catano, PR 00632. [We hope he means he has "landing permission," as every US ham has a license for KP5. -ed.]

South Shetlands - LU/Z Hector LU6UO will operate for two months from 25 de Mayo Island in the South Shetland Group (AN-10), from Jan. 10, 1987. He likes 3505, 7005, 14020, 21020, and 28020 kHz. QSL to Group Argentino de CW, Carlos Diehl 2025, 1854 Longchamps, Buenos Aires. Tnx DXPress.

Mayotte - FH The Colvins **FH/W6KG** (AF-07) have been reported on 40 meters, but most stateside DXers are getting through on 20, esp. 17-2100Z, around 14002, or even lower. Remember, this is the middle of the night over there! QSL Yasme.

New Caledonia - FK Alain F6BFH (of Clipperton fame) will operate as **FK/F6BFH** Dec. 16-26 from New Caledonia (OC-32). He'll move on to **Tahiti - FO** Dec. 27-Jan. 3. QSL to 21 Rue de la Republique, 76420 Bihorel, France. Sunrise 1820, sunset 0730Z.

Mauritania - 5T5 DL1VJ is still active as **5T5XX** until Dec. 5. Check Bandpass for operating habits. QSL B. Laenger, Schlossbergstr. 3, D-6603 Sulzbach 2, West Germany.

Shortly Noted

• **Oblast 055 - UI-U** UB5ZX should be **/UI8U** until Dec. 10 from Oblast 055. Tnx DXNS.

• **Comoros - D68** D68WS has been reported on 14177 around 1930Z. He's William Barnett, BP 540, Moroni, Grand Comoros (AF-07). The Colvins are headed this way after Mayotte.

• **Crozet - FT8W** One of the promised French Antarctic stations made it on the air so far: **FT8WA** (AF-08). The other stations are due on soon. Incredibly FT8WA and **VP8WA** were on the same frequency at the same time, unable to hear each other. Some DXers who worked one of the stations will find themselves in both logs!

• **Kerguelen - FT8X FT8XD** should be active soon from AF-48.

• **Heard - VKØ VKØDA** is now on Heard (AN-03). Check Jim Smith VK9NS's net on 14220 for more information.

• **Macquarie - VKØ** Graham **VKØGC** is back on the island (AN-05), and Sojo **VKØSJ** will be staying a couple of more months, so you have more than your usual shot at this isolated spot. (See June Special Report.)

• The recent burst of CW activity from **D44BC** was Jim N6TJ warming up for the CQWW CW contest. Jim showed up with a good signal on all the lower bands. QSL his QSOs to D44BC's Callbook address.

• **British Virgin Islands - VP2V** K7NHV should be on now as **/VP2V** (NA-23), until Dec. 8. QSL **Callbook** address.

• **Kiribati - T30** Alan **T30AT** is packing up his station and heading for VK6. If you need a card, QSL now to G4GED; he'll stop answering cards when he runs out of the present supply.

• **Liberia - A8** Liberian amateurs will use the A8 prefix through the end of the year. QSL A8 contacts to N5GAP. Donations go to humanitarian foundations in Liberia. Tnx. Inside DX.

— **Chod Harris VP2ML Editor**

Thanks N4XX and KH6BZF.

Propagation Watch

Lots of good news for DXers! We might get a recurrence of some minor solar storms Dec. 8 and again Dec. 12-13, but otherwise we should have very good conditions. At this stage in the sunspot cycle, even a small increase in solar flux does great things for propagation. With any luck at all, we should get both a bump in solar flux and low (single digit) absorption figures over the next couple of weeks. So watch for shortening skip on one band, which might indicate the next highest band is opening in that direction.

Low absorption should help the Top Band crowd in the ARRL 160 Meter Contest. And even the 10 Meter Contest should see some F2 propagation. Make the most of the good days; it's still a long way to the next sunspot peak!

Band conditions for CQWW CW were not as good as the spectacular conditions for the SSB weekend, but were still very good. Signals on 80 meters were excellent, and even 10 meters provided plenty of South American and Caribbean multipliers. 15 provided world-wide openings.

Award Information

The Royal Omani Amateur Radio Society sponsored a National Day activity Nov. 14-23. If you worked 2 A4X../ND stations on different bands, send certified list or log extract and 10 IRCs to ROARS, Box 981, Muskat, Sultanate of Oman.
